SAFETY TECHNOLOGY SOLUTIONS THAT WORK FOR YOUR BUSINESS

SafetyIX is an Integrated Safety Information system that has been developed and tested over a number of years. Risk prevention, control and record keeping cannot deliver and validate information instantly.

The CEO or President can look at any part of his or her operation from anywhere in the World. Compliant to Australian and International Standards like AS/NZ4801 or ISO 1800.

Whether you are a director, executive officer or individual and the company requires you to have the ability to project manage people, check skills sets anywhere in the world within your group, direct leadership and teamwork, manage a crisis, record, investigate and minimise further risk any time and anywhere then **SafetyIX from SIX.com** is the system for you.
